### **Calibrating the Human Mutation Rate via Ancestral**

The human mutation rate is an essential parameter for studying the evolution of our species, interpreting present-day genetic variation, and understanding the incidence of genetic disease. Nevertheless, our current estimates of the rate are uncertain.

### **Calibration Media Human Connection Calibrated**

Human Connection. Calibrated. Calibration Media started as a question. What if we could use technology to connect people closer? What if these connections could be enhanced and augmented? What if we could really, truly calibrate out relationships? From these humble beginnings, Calibration Media was born. We align technology with human experience. We orient relationships with applications. We enhance your experience online and offline. We are truly calibrating media.

### **Calibration Wikipedia**

To communicate the quality of a calibration the calibration value is often accompanied by a traceable uncertainty statement to a stated confidence level. This is evaluated through careful uncertainty analysis. Some times a DFS (Departure From Spec) is required to operate machinery in a degraded state. Whenever this does happen, it must be in writing and authorized by a manager with the technical assistance of a calibration technician.
